Subject: Aquatic Center Palm Desert

Good afternoon as a user of the facility I was pleased to see that you were giving a second thought to changing the membership model from the community based Y to an out of state management group . Centers such as these as well as YMCA are pivotal and core to communities and changes must be made with great caution . While they're maybe the promise of more dollars and economic enhancements.. maybe ... at what cost ? Please reconsider and leave as is , if not broken don't fix it ! Nancy Goin
