

**CITY OF PALM DESERT**  
**INTEROFFICE MEMORANDUM**

To: Active Transportation Subcommittee  
From: Bassam AL-Beitawi, Senior Project Manager  
Date: October 2, 2024  
**Subject: Raised Mid-Block Crosswalk Designs**

---

The City currently maintains three raised mid-block crosswalks at the following locations:

- El Paseo (San Luis Rey Avenue and Larkspur Lane)
- El Paseo (Larkspur Lane and San Pablo Avenue)
- Larkspur Lane (El Paseo and Shadow Mountain Drive)

In addition, the City will be installing two raised mid-block crosswalks at the following locations:

- El Paseo (Sage Lane and Lupine Lane)
- El Paseo (Ocotillo Lane and Sage Lane)

Staff was directed to evaluate new crosswalk design options at these locations, with the selected design(s) to be incorporated into a larger street project planned for summer 2025.

Together with Kimley Horn (consultant), the City has developed several design concepts for further consideration. Staff will provide a presentation on the design concepts, followed by discussing the proposed next steps in the design process.
