---

February 26, 2025

City of Palm Desert  
City Council / City Hall - Council Chamber  
73510 Fred Waring Dr.  
Palm Desert, CA.  
Attention: Clerk of the Board

Re: Written letter to be entered in the Public record and made available for public Inspection for the February 27, 2025 (4:PM) regular scheduled City of Palm Desert Council meeting - Agenda Item: 14.c (proposed Resolution No: unadopted - "Expressing Concern" to SCAQMD radical proposal to impose restrictions upon residents and businesses)

Dear current City of Palm Desert Council members,

Please review my written statements listed below prior to the consideration of agenda Item: 14.c

Position: In agreement with City's recommendation

It's highly recommended to voice concerns over South Coast Air Quality District (SCAQMD) radical position to impose additional restrictions throughout Southern California communities.

It's been repeatedly demonstrated that SCAQMD have been able to gain influence over most governmental agencies within its authority (boundaries).

The City of Palm Desert has been committed (potentially compromised) from organizations (such as: Southern California Association of Government [SCAG] and Coachella Valley Association of Government [CVAG]) - but, lately have been "unhappy" with (SCAQD) unwillingness to push the narrative of increased air pollution in the region.

It's worth noting that "what ever" the reason - the City of Palm Desert's current City Council have decided to support a "common sense" approach to its residents and businesses overall betterment.

Sincerely,

Brad Anderson | [REDACTED]
